

DEFENDING KENTUCKY SKILLED NURSING HOMES

THE SITUATION: Kentucky nursing homes are suffering immensely.

80.16%¹

the percentage of nursing homes at risk for financial distress

44.53%

the percentage of nursing homes **ALREADY** in financial distress

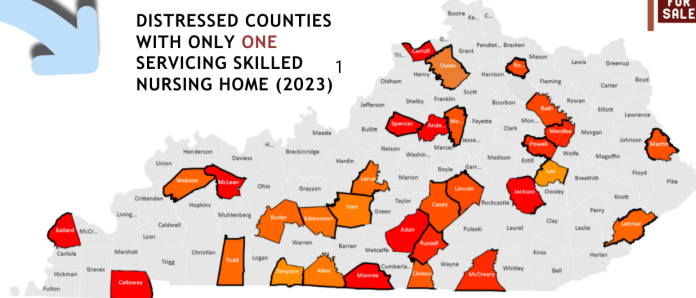

Combined with continued staffing issues and rising costs, if Kentucky nursing homes are not properly funded, there could be **MANY** closures.

31

counties projected to be at risk/in distress contain only **one** servicing skilled nursing home

DISTRESSED COUNTIES WITH ONLY **ONE** SERVICING SKILLED NURSING HOME (2023)¹

Did you know?

210...

the average number of Kentuckians being admitted/readmitted into nursing homes¹
DAILY

20,683

nursing home beds stay occupied on average throughout the year²

THE SOLUTION (OR AT LEAST PART OF IT)

Join us in support of Kentucky nursing homes by contacting your representatives and senators. Locate your legislators by scanning the QR code below.

Join us in support of your loved one, or your friend's loved one. Where would they go if you said, "no?"

¹ All statistics and heat maps are based on FY2022 Medicare/Medicaid cost reports. Projections were made using average rate increases across the state.
